Get Over It

Lower Than Atlantis

Yeah I know that before, I was hanging
From the web that you weave by a thread
Heart weighed down, I let go of it
Hit the floor with a bang, as I lay there
Felt a fool, had myself to blame
A breath of fresh air can feed a fire
Or blow out a flame
Blow out a flame
A breath of fresh air can feed a fire
Or blow out a flame

But it seems that a bang is what I needed
Falling hard, knocking sense into me
Too blind before
But now I see

I know the moment you let go
You want it
You always want whatever you can't have
Well this time
You can't have me
You know the moment I say no
You want it
You always want whatever you can't have
Well this time
I've got to leave
You

Let go, let go honey
Let go, let go
Yeah
Let go, let go honey
Let go
Get over it

While we're sat on the fence I was waiting
Waiting for you to make up your mind
Before you've made up yours
I've made up mine
I was frostbitten by your cold shoulder
All the time spent with you I was alone
Just because I rock
Don't mean I'm made of stone

Let go
You want it
You always want whatever you can't have
Well this time
You can't have me
You know the moment I say no
You want it
You always want whatever you can't have
Well this time
I've got to leave
You

Let go, let go honey

Let go, let go
Yeah
Let go, let go honey
Let go
Get over it

Let go, let go honey
Let go,
Get over it
Get over it
Get over it

You're out of the picture
Woah
And I don't even miss you
Miss you at all
And the next one to kiss you
Will make you realise
You don't know what
Don't know what you have 'til it's gone
Yeah
You don't know what
Don't know what you have 'til it's gone

Let go
You want it
You always want whatever you can't have
Well this time
You can't have me
I know the moment you let go
You want it
You always want whatever you can't have
Well this time
You can't have me
You know the moment I say no
You want it
You always want whatever you can't have
Well this time
It's time to leave
You

Let go, let go honey
Let go, let go
Yeah
Let go, let go honey
Let go
Get over it
