

## Just What You Need

Lower Than Atlantis

Dressed to impress  
Sweat drips down her breast  
Heaven sent  
Money will be spent  
Long blonde hair  
I can't help but stare  
Lipstick red  
We'll end up in bed

Know that you will find just what you need  
On the dance floor, dancing with me  
If you want love girl, let's make some  
I will show you the way that I move  
You want it don't you?

Skin, soft touch  
I can't get enough  
Sparks will fly  
We're making love tonight, till it's light

Know that you will find just what you need  
On the dance floor, dancing with me  
If you want love girl, let's make some  
I will show you the way that I move  
You want it don't you?

Know that you will find just what you need  
On the dance floor, dancing with me  
You want it don't you?

Know that you will find just what you need  
On the dance floor, dancing with me  
If you want love girl, let's make some  
I will show you the way that I move  
You want it don't you?
