

# Live Slow, Die Old

Lower Than Atlantis

The good die young and I won't get any younger  
Live fast die fun, and I'll sleep when I am dead  
I've heard time flies so I guess I should be flapping  
Everyone dies, gonna have fun till then

They say that home's where the heart is  
Mine was broken long ago, I can't make a house at home  
They say that the life's what you make it I already know  
That I won't live slow die old

No I never know, no I never know I won't  
I'll never live slow I won't die old  
No I never know, no I never know no I won't  
I'll never live slow I won't die old

I'm 25, I won't adjust  
I've still got time, so eat my dust  
Get up, get up and get out there  
I'm down if you're down we'll go somewhere, run like we're being chased  
Run far away

They say that home's where the heart is  
Mine was broken long ago, I can't make a house at home  
They say that life's what you make it I already know  
That I won't live slow die old

No I never know, no I never know I won't  
I'll never live slow I won't die old  
No I never know, no I never know no I won't  
I'll never live slow I won't die old

Hey life, although I've put some space between us  
I still think about the future and what it's got in store for me  
If I get there I hope I'm wrong  
I'll make sure I don't

They say that home's where the heart is  
Mine was broken long ago, I can't make a house at home  
They say that life's what you make it I already know  
That I won't live slow die old

No I never know (no I never know), no I never know (no I never know),  
no I never know  
They say that life's what you make it I already know  
That I won't live slow die old  
No I never know, no I never know I won't  
I'll never live slow I won't die old  
No I never know, no I never know no I won't  
I'll never live slow I won't die old
