

# Money

## Lower Than Atlantis

It can't be bought, it can't be sold  
It's new and it's old, worth its weight in gold  
You've got enough, you needed more  
It's rich and it's poor, keeps wolves from their door

It feeds our need, need for greed  
All that it saves can't be taken to the grave  
Improves your life for a small price  
It will make you pay  
Can't buy happiness but it buys the rest  
And that's enough  
(Enough for me)

I don't care about it  
I can't live without it  
Though I love to hate it  
I work hard, to make it  
Win the lottery  
Give the lot to me  
Anybody lending?  
'Cause money is for spending

Money, money, your money  
Hey, give me all of your money  
Money, your money, no

I try my best to plan and save  
But when I get paid, it's taken away  
How can I live, for heaven's sake  
When all I that I make, someone else takes?

It feeds our need, need for greed  
And all that it saves can't be taken to the grave  
Improves your life for a small price  
It will make you pay  
Can't buy happiness but it buys the rest  
And that's enough  
(Enough for me)

I don't care about it  
I can't live without it  
Though I love to hate it  
I work hard, to make it  
Win the lottery  
Give the lot to me  
Anybody lending?  
'Cause money is for spending

Money, money, your money  
Hey, give me all of your money  
Money, your money, no

Spare change, please make company for the months  
Spare me ten P 'cause every little helps  
Until my career takes off  
It can't buy happiness  
But it buys the rest

And that's enough  
Enough for me

Anybody lending?  
Give me all of your money  
Money, your money  
Hey, give me all of your money  
Money, your money, no
