

Follow Me Down

LP

Burnt down cigarettes
Faded blues and gray I'm feeling so worn
I've seen better days
You're so beautiful
My eyes have never seen
All the times
I've tried to figure out my dreams
I can't stand another man
So where am I going down
You're gonna follow me baby
Follow me down

Warm rain wash away
Did you get your money's worth?
Don't try to trick me baby
I been here first
I didn't plan on this
It took a turn for the worse
Oh, but I need you with me to try and lift this curse

I can't stand another man
So where am I going now
You're gonna follow me baby
Follow me down

Burnt down cigarettes
Faded blues and gray
I am feeling so worn
I seen better days
You're so beautiful
My eyes have never seen
All the times I've tried
To figure out my dreams
I can't stand another man
So where am I going now
You're gonna follow me baby
Follow me down

I can't stand another man
Where am I going now
You better follow me baby
Follow me down, down, down
