

# Savannah

LP

The mountain was on fire  
And the southern night was dark  
As I drove into town  
I could almost hear your heart  
Ashes in the air  
And it was an empty sound  
Found my way to your house  
I never felt my heart so loud

Savannah  
Will you let me in  
I know I let you down  
Can you believe again  
Savannah  
I come to this place  
To this sacred ground  
Just to see your face  
Oh oh there is a life all around you  
Hold me in your light  
Ooh ooh ooh  
Savannah  
Give me another day

I made my mistakes  
I know I stayed away too long  
I miss your midnight kiss  
And your sweet magnolia song  
I only write for you  
No one has ever brought me there  
I know I wasn't true  
I can't escape it anyway

Savannah  
Will you let me in  
I know I let you down  
Can you believe again  
Savannah  
I come to this place  
To this sacred ground  
Just to see your face  
Oh oh there is a life all around you  
Hold me in your light  
Ooh ooh ooh  
Savannah  
Give me another day

I've been away now I'm calling your name  
I've been away now I'm calling your name

Savannah  
Will you let me in  
I know I let you down  
Can you believe again  
Savannah  
I come to this place  
To this sacred ground  
Just to see your face

Oh oh there is a life all around you  
Hold me in your light  
Ooh ooh ooh  
Savannah  
Give me another day
