

Shut You Out

LP

Today's a brand new day
You say let's get together
You seem to think you're all I need
Yeah, whatever

I shut my heart
I shut my heart
Pushed you away
So now we'll never really know
I shut my heart I shut you out

Troubled girl
I fall too hard too easily
It makes me want
To break free
Tune out
Without
You're on your own
It makes me sick
I'd rather be alone

I shut my heart
I shut my heart
Pushed you away
So now we'll never really know
I shut my heart
I shut you out
