

## How Many

Luba

It has been raining  
For so long  
I have been praying  
For a break in the storm  
But in the thunder  
I hear your name  
And it takes me under  
Underneath all this pain  
And I've got to get on with my life  
But I don't know how  
Tell me

[Chorus]  
How many rivers to cross  
How many crosses to bear  
How many miles till I get there  
Without you

I have been waiting  
For so long  
Now this woman is saying  
She can't wait anymore  
No sound of thunder  
No threat of rain  
Can keep me under  
Underneath all this pain  
And I've got to get on with my life  
But I don't know how  
Please tell me

How many rivers to cross  
How many crosses to bear  
How many miles till I get there  
Without you

How many rivers to cross  
How many crosses to bear  
How many miles till I get there  
[repeat and fade]
