## **Strength In Numbers**

No man is an island Yet we swim this sea alone Trying to make it to shore On our own But we can be better We can better Whatever we'll weather Together you and I There's strength in numbers Let's get together You and I There is strength in numbers Come on Come together One house divided Will surely crumble and fall But if we stand united Through it all Then we will be better So much better Whatever we'll weather Together you and I Repeat chorus We'll multiply The force inside Then multiply The power and the love It's you and me Baby
