

# Kings of the Nordic Twilight

Luca Turilli

Ille dies fastus  
Fastus est per lege  
Per quem lege lice  
Licebit agi  
Studia nostra nostrae  
Nostrae naturae re  
Regula metiamur  
Naturae regula  
Cruor signaverat  
Signaverat herbam  
Innocentium cruor  
Domine domine  
Propemodum saecul  
Saeculi res in un  
Res in unum diem  
Fortuna cumulat  
Quis tam animo agresti fuit ut non commoveretur?  
Tu te dictis praebere me  
Dictis praebere memento  
Luna solis lumine collustratur  
Mors morte pianda est  
Soon the dew of morning filled all the silent wood  
And when the sunbeams kissed his face  
He opened his so lucky eyes in front of him the oak  
The whispers of the river the freshness of the dawn  
Oh, my god, where was I...  
A land where my my dreams rule  
Where hopes of victory become reality for every man  
That hardly raised the steel  
The fight for peace of reign is so won once again  
Warriors, battles, swords of steel and magic, tragic destinies  
Glory, pride and honor for my will for justice everywhere  
I can't believe what I have seen there in that fantasy world of mystery  
Many warriors and kings, golden swords of steel all united for victory  
I speak to you for the last time before we ride to the sun  
I could survive in your proud heart 'cause you are now one of us!  
We are the kings of the nordic twilight  
We are the lords of ice and snow  
For the glory we will fight  
For the peace we'll ride  
For the skies we'll reign together  
He felt on his knees having heard the holy words  
And moved by the honor so...  
"oh, no lord too much for me I still cannot believe,  
the chance you gave to me is so great... I am a blessed man!"  
Convinced of all the power of what true love can do  
And while the whispers of the brave began to fade  
He understood life wouldn't be the same,  
With all emotions of today he would have found his way  
Warriors, battles, swords of steel and magic, tragic destinies  
Glory, pride and honor for my will for justice everywhere  
I can't believe what I have seen there in that fantasy world of mystery  
Many warriors and kings, golden swords of steel all united for victory  
And at last also I know truly what love can do  
So try to live at your best and ride from the sun to the moon  
We are the kings of the nordic twilight  
We are the lords of ice and snow

For the glory we will fight  
For the peace we'll ride  
For the skies we'll reign together  
"... And finally the silent woods of Valdaran greet the fierce battalion.  
Victory rides in the heart of all nature... and light and shadows play all o  
ver the land  
Before the lord of twilight gives the knights a deserved rest... "  
Along the border between earth and hell...  
May now your kingdom prevail!  
I speak to you for the last time before we ride to the sun  
I could survive in your proud heart 'cause you are now one of us!  
And at last also I know truly what love can do  
So try to live at your best and ride from the sun to the moon  
We are the kings of the nordic twilight  
We are the lords of ice and snow  
For the glory we will fight  
For the peace we'll ride  
For the skies we'll reign together  
Cruor signaverat  
Signaverat herbam  
Innocentium cruor  
Domine domine  
Propemodum saecul  
Saeculi res in un  
Res in unum diem  
Fortuna cumulat  
Quis tam animo agresti fuit ut non commoveretur?  
Domine, domine  
Gloria perpetua  
Raise high your steel friends, because evil is riding now  
Along the border between earth and hell...  
May now your kingdom prevail!
