

To Magic Horizons

Luca Turilli

Welcome to shadow world far under northern skies
Mountains and raging seas, valleys and icy winds
Inter futmina et in tenebris
Mihi horror membra percipit
Quantum mortalia pectora
Tora caecae noctis habent
Domine, domine, domine, domine
Gloria, gloria, gloria perperua
Glory and majesty, triumph and victory
Legends and epic tales born between these dark lakes
For you a new one written with black blood...
