

Halfway Wrong

Lucero

I hate to think that I been wasting anybody's time
But I don't know no other way. It's hard to say what's right
I never meant to cause you any kind of pain
I wish I coulda made it work some other way

I gotta say I think about you baby all the time
It ain't true that out of sight always means out of mind
But you were hurting and it wasn't fair to stay
Now it takes all I got to try and stay away

We both know how this'll probably turn out
But another shot and another song
You and me and all of this is only halfway wrong

Now I ain't saying that I want it like it was before
Too many nights of fighting, it ain't worth it anymore
Too many nights of chasing you around downtown
Too many nights of me not even being around

But them drunken nights of kissing running in the street
And for a moment kid the world was all it had to be
I don't wanna, but I gotta let you go
I shouldn't say it, but I thought I'd let you know

We both know how this'll probably turn out
But another shot and another song
You and me and all of this is only halfway wrong

It's just another shot, it's just another song
You and me and all of this is only halfway wrong

Now I ain't saying that I want it like it was before
Too many nights of fighting, it ain't worth it anymore
Too many nights of chasing you around downtown
Too many nights of me not even being around

We both know how this'll probably turn out
But another shot and another song
You and me and all of this is only halfway wrong

We both know how this'll probably turn out
But another shot and another song
You and me and all of this is only halfway wrong
You and me and all of this is only halfway wrong
