

Hello Sadness

Lucero

You knew it was bound, to catch me again
Well hello sadness
My old friend
Well it's been awhile
But now I see
You're back in style
Well sit down and rest, I ain't goin' no where
I feel the pain
Like a shot from a gun
Feel it deep in my gut
I'm done tryin to run
I'm given in, I'm given up
I'm tired of the fight
Well you got my corner
To know it ain't right
Well ill surrender tomorrow if I live through the night.
Well you got my corner
Hell I know it ain't right,
Well Ill surrender tomorrow if I live through the night
