

Is That You I've Been Kissing

Lucero

We've been kissing for hours
Before I felt your lips
Thought I was dreaming about her
Till I felt her finger tips
Well hello there
How did you end up here?
Is that you I've been kissing?
Is that you holding me near?
Now I didn't catch on
Quite as quick as I should
Im not sure if it's real
But it sure is good
If you ever kiss me
Kiss me again
And if I'm only dreaming
Then don't let it end
Well I'll hold on tightly
So you don't slip away
I'm not sure if you're real
But I sure hope you stay
Is that you I've been kissing?
Is that your hand in mine?
I didn't see it coming
But I do like it fine
I just hope when I wake up
That you're still by my side
Well your kisses fade
With the morning light
I hope when I wake up
That you're still by my side
And then I'll kiss you some more
In the broad day light
Is that you I've been kissing?
Is that your lips touching mine?
