## **She Wakes When She Dreams**

Lucero

She's crying herself to sleep every night 'til her eyes shut and find better times She wakes when she dreams Sleeps when she wakes

Now sleep my sweet girl And dream of better days

Nothing it seems went according to plan Who are we kidding, there was never a plan We followed our instincts In the worst kind of ways

Now sleep my sweet girl And dream of better days

She sits at the bar, she smiles and she drinks She talks the whole night Never says what she means She'll fight when she's drunk We stay outta the way

Now sleep my sweet girl And dream of better days

She wears a sorrow beauty can't hide
I pray she sheds it and sleep the whole night
She wakes when she dreams
Sleeps when she wakes

Now sleep my sweet girl And dream of better days
