

Sixes And Sevens

Lucero

I can't say I mind you dancing
It's quite impressive in those shoes
And I don't need no complications
But those are complicated moves

Hell it's all sixes and sevens to me now
For all I can remember
I just took my money out and thrown it on the ground
Just thrown it on the ground

Drinking women, chasing whiskey
Like there's nothing left to lose
Now if she'd only kiss me
I'd be a little less confused

Six it tells me to believe
Seven kicks me in the teeth
Six won't let my heart a-roam
Seven split for Mexico

Figure the more time I spend sleeping
When we hit New Orleans
The more chance I might break even
That didn't sound like fun to me
