

## Sweet Little Thing

Lucero

Sweet little thing  
A constant in my thoughts  
Sweet little thing  
Somehow we both got lost  
And you tell me that I can't change  
And you say I'm such a boy

Sweet little thing  
Your friends say I'm no good  
Sweet little thing  
They never understood  
The way I'd stay up all night  
The way I'd tremble in your arms

A kiss'll make you close your eyes  
A kiss won't make you stay  
Please don't walk away  
Please don't walk away  
I like to know you're there  
Though there's nothing left to say  
Please don't walk away  
Please don't walk away

Sweet little thing  
Maybe I ain't no good  
Sweet little thing  
I ain't done what I should  
I let'em think what they want  
But all I want is you

A kiss'll make you close your eyes  
A kiss won't make you stay  
Please don't walk away  
Please don't walk away  
I like to know you're there  
Though there's nothing left to say  
Please don't walk away  
Please don't walk away

A kiss'll make you close your eyes  
A kiss won't make you stay  
A kiss'll make you close your eyes  
A kiss won't make you stay  
Sweet Little Thing  
A kiss'll make you close your eyes  
A kiss won't make you stay  
A kiss'll make you close your eyes  
A kiss won't make you stay  
Sweet Little Thing
