Every bell in our neighbourhood
Sadly ringing / ringing/
You can hear people crying out: "King has died"
/ Oh why, he died/
Why can't we stop the time
If we could, it'd be fine
There in shadow of walls
Was just committed crime

One of royal pages
Seems that hasn't sleep for ages
a He's terrified 'cos king's gone off stage
And he had seen someone
Who had given the king poison
Never know what's gonna
Be when you're a page

Every bell in our neighbourhood
Sadly ringing
/ringing/
Telling everyone that our king passed away
/ passed away/
Everyone is surprised
'cos he was full of life
He will be kept in our minds
Why did he have to die?

One of royal pages
Will probably never bear this [probably]
He is terrified 'cos king's gone off stage
And he had seen someone
Who had given the king poison
Tell me what can you do
When you're a page

Lord, you know who is right
Lord, you should stop the fight
You're the one who can help
cWhy' s the killer alive
And my king is dead?

Going where I long to
I search someone to trust to
Wanna find
A safe place to stay
Going where I thirst to
I search someone to trust to
He must be here or far far away

/I'm/ never gonna bear this
There must be some justice
Wanna find
A safe place to stay
/I'm/ never gonna bear this

There must be some justice
There must be a safe place to stay

Now he 's here in prison
Why he never took the poison
All can happen
When you're a page
