

Are You Down

Lucinda Williams

Can't put the rain back in the sky
Once it falls down, please don't cry
Rain turns the dirt into mud
Warm and messy, like your love

Can't force the river upstream
When it goes south, know what I mean?
Nothin' will make me take you back
Are you down babe, down with that?

Can't put the rain back in the sky
Once it falls down, please don't cry
Rain turns the dirt into mud
Warm and messy, like your love

Can't force the river upstream
When it goes south, know what I mean?
Nothin' will make me take you back
Are you down babe, down with that?

Are you down babe, down with that?
Are you down babe, down with that?
