

Convince Me

Lucinda Williams

Convince Me
Please, please convince me
Please, please, please convince me

Tell me so it makes sense to me
How much better it's all gonna be
And please, please, please convince me
Please, please, please convince me

Tell me so I understand
Talk to me and hold my hand
And please, please, please convince me
Please, please, please convince me

Tell me everything's gonna be alright
Even if it takes all night Please
Please, please convince me
Please, please, please convince me
I've been in trouble and I've been blue
Tell me something good tell me something new
Please, please, please convince me
Please, please, please convince me

Tell me what it's all about
Tell me things will work out
And please, please, please convince me
Please, please, please convince me

The whole wide world is falling apart
The whole wide world gonna break apart
So, please, please, please convince me
Please, please, please convince me
Please, please, please convince me
Please, please, please convince me

Convince me, baby
Convince me, baby
Convince me, baby
Convince me, baby
Convince me, baby
Convince me, baby
Convince me, baby
Convince me, baby
