

Lines Around Your Eyes

Lucinda Williams

There are things about you that make me want to scream and shout

There are things about you that make me want to lock you out

But there's a little thing that drives me wild

Something that happens every time you smile

I can't get over the lines around your eyes

Lines around your eyes everytime you smile

And the way you touch me darlin' just drives me wild

Sometimes I don't know what we're fightin' about

But that don't mean we can't work things out

Cause I love you darlin' and the lines around your eyes

I put my car in gear and I headed down Highway 10

I was leavin' here, I was never comin' back again

I got about as far as the Texas line

I still couldn't get you off of my mind

Cause I can't get over the lines around your eyes

Lines around your eyes everytime you smile

And the way you touch me darlin' just drives me wild

Sometimes I don't know what we're fightin' about

But that don't mean we can't work things out

Cause I love you darlin' and the lines around your eyes
