Motherless Children

Lucinda Williams

Motherless children Have a hard time When their mother's dead Motherless children Have a hard time When their mother's dead Wanderin' round From door to door They don't have No place to go Motherless children Have a hard time When their mother's dead Some people say Your sister will do When your mother's dead Some people say Your sister will do When your mother's dead Some people say Your sister will do Soon as she marries Turn her back on you Motherless children Have a hard time When their mother's dead Some people say Your auntie will do When your mother's dead Some people say Your auntie will do When your mother's dead Some people say Your auntie will do Make a start Then prove untrue Motherless children Have a hard time When their mother's dead Your husband may do The best he can When your mother's dead Your husband may do The best he can When your mother's dead Your husband may do The best he can But your husband Don't understand Motherless children

Have a hard time When their mother's dead

Jesus will be A father to you When your mother's dead Jesus will be A father to you When your mother's dead

Jesus will be A father to you Through pain and sorrows He'll lead you through Motherless children Have a hard time When their mother's dead

Motherless children Have a hard time When their mother's dead I say motherless children Have a hard time When their mother's dead

Wanderin' round From door to door They don't have No place to go Motherless children Have a hard time When their mother's dead

Motherless children Have a hard time When their mother's dead
