

## Plan to Marry

Lucinda Williams

Okay, this is in G

When leaders can't be trusted  
And hero's let us down  
And innocence lies rusted  
Frozen beneath the ground

And the destitute isolated  
We've all been forgotten  
And the the fruit trees we planted  
Are withered and rotten

The abuse and magnificent  
Suffer from infection  
And the promises were given  
But never with intention

War becomes common place  
Secrets overheard  
And violence, big business  
And love is just a word

Why do we marry, why do we fall in love?  
Keep on believing in love  
Because love, love is my sward  
Love is a weapon, love is a lesson

And we, we are the conquerors  
We are the soldiers, we are the lovers  
That's why we fall in love  
That's why we believe in love, that's why we marry
