Unsuffer Me

Lucinda Williams

Unlock my love
And set me free
Come fill me up
With ecstasy

Surround my heartbeat
With your fingertips
Unbound my feet
Untie my wrists

Come in to my world
Of loneliness
And wickedness
And bitterness
Unlock my love

Unsuffer me
Take away the pain
Unbruise unbloody
Wash away the stain

Anoint my head
With your sweet kiss
My joy is dead
I long for bliss

I long for knowledge
Whisper in my ear
Undo my logic
Undo my fear
Unsuffer me

Unlock my love
And set me free
Come fill me up
With ecstasy

Unsuffer me
Take away the pain
Unbruise, unbloody
Wash away the stain

Surround my heartbeat
With your fingertips
Unbound my feet
Untie my wrists

Come in to my world
Of loneliness
And wickedness
And bitterness

Anoint my head
With your sweet kiss
My joy is dead
I long for bliss

I long for knowledge
Whisper in my ear
Undo my logic
Undo my fear
Unsuffer me

I long for knowledge
Whisper in my ear
Undo my logic
Undo my fear
Unsuffer me
