

# Shenandoah

Lucius

Playing back the lights, we said again  
It's taken me some time to get to this end

I thought that we could light a fire  
We'd go out and watch the stars

When the darkness falls, I'll still see your face  
Smoke gets in your eyes, that's why you look that way

Moon's hiding far behind the trees  
But it's always there, the river brings it closer to me  
Wouldn't you like to light a fire?  
We could go out and watch the stars

Shenandoah la la love, la la love, la la love  
Shenandoah la la love, la la love, la la love

Wouldn't you like to light a fire?  
We could go out and watch the stars  
Wouldn't you like to light a fire?  
Wouldn't you want to watch the stars?

Shenandoah la la love, la la love, la la love  
Shenandoah la la love, la la love, la la love  
Shenandoah, Shenandoah, Shenandoah  
Shenandoah la la love, la la love, la la love  
Shenandoah, Shenandoah, Shenandoah  
Shenandoah la la love, la la love, la la love  
Shenando-love, love  
Shenandoah la la love, la la love, la la love  
Shenando-love, love  
Shenandoah la la love, la la love, la la love  
Shenandoah la la love, la la love, la la love
