

## Two Of Us On The Run

Lucius

There are two of us on the run  
Going so fast, every doubt we had is coming undone  
And falling behind with everything we left there  
We held on for far too long

And now we pass so many people on the road  
They could come along, I wish they'd been told  
They may call it a shot in the dark  
From what we know, it's not unheard of

And we'll one day tell our story  
Of how we made something of ourselves now

Our favorite parts are what we'll keep  
Ornamental parts of love and parts of memories  
So everything else has room to grow  
'Cause in better light, everything changes

So we can one day tell our story  
Of how we made something of ourselves now

There's no race, there's only a runner  
Just keep one foot in front of the other  
There's no race there's only a runner  
1, 2, 3 even when you get tired  
Just keep one foot in front of the other  
There's no race, no ending in sight  
No second too short, no window too tight

Just turn off the lights when you leave  
'Cause we've got everything we're gonna need  
We're on the run, we're on the run, we're on the run child  
We gotta run, we gotta run, we gotta run child

One day tell our story  
Of how we made something of ourselves now

One day tell our story  
Of how we made something  
We made something of ourselves
