

# Guns And Roses

Lucky Dube

I don' t know why  
I keep believing  
That one day, they' ll bring us together  
When they' ve shown  
In more ways than one  
That all they care about is the dollar  
You belong to the one political party  
I belong to the one musical party  
Our differences are worlds apart  
Just like guns and roses  
If we don' t take control  
Of the situation  
We' ll stay forever in this ya commotion

(3x)

These guns and the roses  
That we' ve got to live with

How can five years of power  
Destroy a lifetime of  
Togetherness  
One time we were judged  
By the colour of our skins  
Now we are judged  
By the colour of our flags  
Let us unite  
Against being divided  
You belong to the one political party  
I belong to the one musical party  
Let us take control of the situation  
Otherwise we' ll be trapped in this
