

Hero

Lucky Dube

Do you see the smiles on their faces
After you have done what you do best
Do you see satisfaction on their faces
After you have blessed them it's your gift
You don't think it's much
But to them it means the world
They wake up in the morning and wish you were there
Don't have to lie to gain their trust
You have never won a Nobel prize
They have never seen you on the TV
Your little contribution makes their lives a little bit better
every day

You're a hero, you're a hero

Big it up, big it up
For the fireman
Big it up, big it up
For the street cleaners
Big it up for the man and the woman who take care of abandoned children
Big it up, big it up
For the grandmothers
Who are left to take care of the children
Big it up, big it up Wo!
