

## Money, Money, Money

Lucky Dube

Don't tell me love makes the world go round  
That is how it used to be  
So many years ago yeah  
These days we're living in  
Everything needs a dollar  
These days we're living in  
Everything needs some money  
You can't get no love without the dollar  
You can't get no justice without the dollar  
So everything is...

Money money money

Judge dread I know I've done something wrong here  
And today you're here  
To put me away forever  
But before you bring that hammer down  
Look what I have in my hand  
Yeah, the wheels of justice  
They turn so slow  
But with this we can make them turn faster  
Than a rocket in my favour  
Doesn't matter what they say  
I've done here today  
Just look the other way  
Like you always do  
When you see...
