

Remember Me

Lucky Dube

Daddy where ever you are remember me
In what ever you do I love you
Daddy where ever you are remember me
In what ever you do I love you

You left for the city many years ago
Promised to come back
And take care of us
Many years have gone by now
Still no sign of you Daddy
Mother died of a heart attack
Many years ago when she heard
That you were married again
Now, I'm the only one left
In the family

Wandering up and down
The streets of Soweto
No place to call my home
I tried to find you
Many years ago
But the women you' re married to
Was no good at all

Daddy yo!
