

Scorpion

Lucy Kaplansky

In night, inside, at night
No whispers, no worries, no words
Just light fills the corner of your eye
Take me in, take me in

Cold sky, dark Montana, long road
Running fence, radio, trucks blow by
Up high, no air, big dreams
Take me back, take me back

I want to show you everything, everything
I want to give you everything, everything
There's a chance now and then, now and then
No more cut and run, no more cut and run

Blue night, blue world, tracking you
I'm a scorpion and I'm coming after you
Running out of darkness and time
Looking for you, looking for you

Gonna sting you with a kiss from my lips
Gonna sting you with a piece of my mind
Gonna sting you with a taste of my skin
Then you're mine, then you're mine

I want to show you everything, everything
I want to give you everything, everything
There's a chance now and then, now and then
No more cut and run, no more cut and run
