

Somewhere Out There

Lucy Kaplansky

Somewhere out there in the world tonight
Just out of my reach
I hear your heart beat
It's coming in loud and clear tonight

Pounding in my brain
Calling out your name
And in the darkness something binds you to me
So that I can find you

When you want me I will be there waiting on you
Somewhere out there
Somewhere out there in your heart tonight
Where I have never gone

You are not alone
It's tearing me apart all right
But darling what can I do
When I'm so far from you

And when I lay me down to sleep
My one and only prayer is you'll keep
Safe from harm until I get wherever you are

Somewhere out there
Somewhere out there [Repeat; x 2]

And if you're sad or if you're lonely
If you're scared or if you're only
Tired of fighting, seeking shelter
Just hold on, I'm somewhere out there

Somewhere out there
Somewhere out there in the world tonight
Just out of your reach

You'll hear my heart beat
You'll hear my heart beat
You'll hear my heart beat
