

## Somewhere Out There

Lucy Kaplansky

Somewhere out there in the world tonight  
Just out of my reach  
I hear your heart beat  
It's coming in loud and clear tonight

Pounding in my brain  
Calling out your name  
And in the darkness something binds you to me  
So that I can find you

When you want me I will be there waiting on you  
Somewhere out there  
Somewhere out there in your heart tonight  
Where I have never gone

You are not alone  
It's tearing me apart all right  
But darling what can I do  
When I'm so far from you

And when I lay me down to sleep  
My one and only prayer is you'll keep  
Safe from harm until I get wherever you are

Somewhere out there  
Somewhere out there [Repeat; x 2]

And if you're sad or if you're lonely  
If you're scared or if you're only  
Tired of fighting, seeking shelter  
Just hold on, I'm somewhere out there

Somewhere out there  
Somewhere out there in the world tonight  
Just out of your reach

You'll hear my heart beat  
You'll hear my heart beat  
You'll hear my heart beat
