

Good Love

Lucy Pearl

Good love will make you cry
Good love will last until you die
When I woke up this morning
Autumn leaves just pass me by

Saw this couple just crying
And in my mind I wonder why
I could tell it was special
'Cause something felt so true yeah

That's the thing about true love
That is the way I want to be happy with you
Good love will make you cry
Good love will last until you die

Now I'm speaking as a woman
Raised with a mother's love
She said you better recognize
The truth from lies

It's in the eyes
Gotta look beyond what you see
It's so much deeper than visually
Let's come together just you and me

Look and see through the trees
The journey of
Good love will make you cry
Good love will last until you die

Love can make you warm
Or it can make you very cold
If you listen to your heart
The truth will unfold

When you find that honey, honey
That touches you on sight
You should never fight that feeling
'Cause good love's so right

Good love will make you cry
Good love will last until you die
