

## Good Love

Lucy Pearl

Good love will make you cry  
Good love will last until you die  
When I woke up this morning  
Autumn leaves just pass me by

Saw this couple just crying  
And in my mind I wonder why  
I could tell it was special  
'Cause something felt so true yeah

That's the thing about true love  
That is the way I want to be happy with you  
Good love will make you cry  
Good love will last until you die

Now I'm speaking as a woman  
Raised with a mother's love  
She said you better recognize  
The truth from lies

It's in the eyes  
Gotta look beyond what you see  
It's so much deeper than visually  
Let's come together just you and me

Look and see through the trees  
The journey of  
Good love will make you cry  
Good love will last until you die

Love can make you warm  
Or it can make you very cold  
If you listen to your heart  
The truth will unfold

When you find that honey, honey  
That touches you on sight  
You should never fight that feeling  
'Cause good love's so right

Good love will make you cry  
Good love will last until you die
