

Shelter

Lucy Rose

Rub my wounds this is not life
Been dreaming I could be your wife
Cause oh we've come to far
To leave this alone would be a crime

And I won't say no
And I can't let go
(The say we can't go on)
Cause the days that you laugh
And the days that forever I'll keep
But the problem stands
We're too young
(They say we are too young)
And the days they will pass
but I'll wait for you endlessly

I'm the neck that can't hold water
You're the atlas lead me further
Cause oh we've come to far
To leave this alone would be a crime

And I won't say no
And I can't let go
(The say we can't go on)
Cause the days that you laugh
And the days that forever I'll keep
But the problem stands
We're too young
(They say we are too young)
And the days they will pass
but I'll wait for you endlessly

Cause you gave shelter
Safe at last, hold me tight
Cause oh we've come to far
To leave this alone would be a crime

And I won't say no
And I can't let go
(The say we can't go on)
Cause the days that you laugh
And the days that forever I'll keep
But the problem stands
We're too young
(They say we are too young)
And the days they will pass
but I'll wait for you endlessly
And the days they will pass
but I'll wait for you endlessly
