

## I want the sky

Lucy Schwartz

I'm ready, ready to run free  
I'd like to know what lies beyond the blue sea  
You live once, so drink the honey  
I learn my lessons from the birds and the bees

I want the sky to open wide  
Illuminate this fire inside  
I want the sky

These buildings, high above me  
Are so much taller than the pictures I've seen  
I don't got a lot of money  
But I got you and baby that's all I need

I want the sky to open wide  
Illuminate this fire inside  
I want the sky

I'm ready, ready to run free  
I'd like to know what lies beyond the blue sea  
You live once, so drink the honey  
I learn my lessons from the birds and the bees

I want the sky to open wide  
Illuminate this fire inside  
I want the sky
