

Take A Picture

Lucy Schwartz

Take a picture, you and me
Oh, you make me smile
Never knew how good it could be
Oh, feel like a child

And I don't have the words to tell you
What I feel inside
But my love you see I just can't hide

This is the sound I hear inside
You pull my heartstrings
This is the sound I hear inside

Meet me by the apple tree
Oh, now it's in bloom
Kiss me softly, kiss me sweet
Underneath the yellow moon

And I don't have the words to tell you
What I feel inside
But my love you see I just can't hide

This is the sound I hear inside
You pull my heartstrings
This is the sound I hear inside

This could be our everyday
Lying side by side this way
Dreaming 'bout the stars
Can you hear the rhythm I created
Listen to the syncopated
Beating of my heart

This is the sound I hear inside
You pull my heartstrings
This is the sound I hear inside
