

## Fight for It

Lucy Spraggan

I've been told that I'm not good enough a million times,  
I've been trying to kid myself with a million lies,  
I've been saying I'm so strong when I'm dying inside,  
I was engineered that way; I've been left behind.

You are, you are  
More than you will ever know  
You are, you are

Don't tell me that you're gonna run away from it now,  
You're gonna stand here and fight for it  
Don't tell me that you can't and that you're gonna back down  
You're gonna stand here and fight for it

I know  
It's been cold  
In your soul  
And you know,  
That I've been there too  
Don't tell me you're gonna run away from it now  
I'm gonna stand here and fight with you

I start to unravel cuz I'm battling that darkest storm  
But I'm still here and it's clear I've got to win this war,  
My tongue's been tires and my hand's been forced,  
Everything seems much better when I'm holding yours.

You are, you are  
More than you will ever know  
You are, you are

Don't tell me that you're gonna run away from it now,  
You're gonna stand here and fight for it  
Don't tell me that you can't and that you're gonna back down  
You're gonna stand here and fight for it

I know  
It's been cold  
In your soul  
And you know,  
That I've been there too  
Don't tell me you're gonna run away from it now  
I'm gonna stand here and fight with you

Someone said reach for the stars,  
I'll reach for the clouds,  
So if I fall at least I know I'll be on the ground  
I float back up and then I'll swim back down  
Cause I won't sink, no I won't drown

Don't tell me that you're gonna run away from it now,  
You're gonna stand here and fight for it  
Don't tell me that you can't and that you're gonna back down

Don't tell me that you're gonna run away from it now,  
You're gonna stand here and fight for it  
Don't tell me that you can't and that you're gonna back down

You're gonna stand here and fight for it

I know

It's been cold

In your soul

And you know,

That I've been there too

Don't tell me you're gonna run away from it now

I'm gonna stand here and fight with you
