

# Hey William

Lucy Spraggan

I was there when you walked away  
Man, she was begging you to stay  
I witness all the things you said  
You took my breath away  
I was there to heal her scars  
It nearly broke us both apart  
Not sure you knew you hit so hard  
But that is who you are

She tries to get you right out of her mind  
But she thinks about you all the time

Hey William, you are down on your luck  
Hey William, but we've all had enough  
You stay the same, keep playing those games  
Well, William, nobody here gives a...

I bet she wonders where you've been  
I knew she'd let you back in  
You knew that too 'cause that's what you do  
And I said that to her but you will always win

She tries to get you right out of her mind  
But she thinks about you all the time

Hey William, you are down on your luck  
Hey William, but we've all had enough  
You stay the same, keep playing those games  
Well, William, nobody here gives a...

Forget what they say to you  
You could stop all of the things that they say to you  
If you can change, and it will change what they say to you  
If you can't behave, then just walk away, will ya?

Hey William, we know you're down on your luck  
Hey William, but we've all had enough  
You stay the same, and keep playing those games  
Well, William

Hey William, you are down on your luck  
Hey William, but we've all had enough  
You stay the same, keep playing those games  
Well, William, nobody here gives a...

William, you are down on your luck  
Hey William, but we've all had enough  
You stay the same, keep playing those games  
Well, William, I wrote this so I must give a...
