Lucy Spraggan

Let's leave this place behind us
We'll dance around our halos
And remember where we fell down.

We'll count up all the numbers
And throw away our ace's
And collapse like a house of cards

You ooooo
You make me wanna go home
You make me wanna go home
You ooooo
You make me wanna go home
You make me wanna go home

We climbed so many mountains
And we sailed across the oceans
With your heart in between my hands

You threw away the raindrops
And you waited 'til the pain stopped
And you parted the darkest clouds

You ooooo
You make me wanna go home
You make me wanna go home
You ooooo
You make me wanna go home
You make me wanna go home

We always said we would grow old disgracefully
In your memory, don't forget, you know
How to keep some space for me
Remember when you promised me
That you'd stay and make a base with me
I'll always be on the end of the phone
And I'll always be yours faithfully
Remember me when you think back to that small old town
Where you grew up and you reached out
Then you got let down
Think of me when the wind blows on that cold open road
And just remember that I'm waiting for you
When you wanna go home

You ooooo
You make me wanna go home
You make me wanna go home
You ooooo
You make me wanna go home
You make me wanna go home
