

# Loaded Gun

Lucy Spraggan

This town is like a circus so if you're starting to feel nervous then  
we'll go and pet dogs on the high street,  
Pull the photo booth curtain check if the bar is serving, if it isn't  
we'll go and get ice cream,  
We can eat sundaes because it is Sunday, and waste our change in the  
arcade  
We can get tattoos and maybe some seafood and then you might be feeli  
ng ok.

We are loaded guns,  
If you wanna go bang we can  
We are loaded guns,  
I know you that you love to dance  
Back and fourth  
Close your eyes  
We can go all night cuz  
We are loaded guns  
If you wanna go bang we can

We can drive out to the river share pork pies for dinner  
If we're lucky then we might see some wildlife,  
Talk about when we're older and sit on the sofa watch all of the 5 tw  
ilight, s,  
Sleep under the skylights, fireworks at midnight,  
They say we're wasting our youth,  
Well youth isn't scared and time isn't wasted as long as I spend it w  
ith you.

We are loaded guns,  
If you wanna go bang we can  
We are loaded guns,  
I know you that you love to dance  
Back and fourth  
Close your eyes  
We can go all night cuz  
We are loaded guns  
And if you wanna go bang we can

We sleep in tents when life's intense  
Stay close all night  
Forget the world and all the people we don't like.

We are loaded guns...  
We are loaded guns  
If you wanna go bang we can  
We are loaded guns,  
I know you that you love to dance  
Back and fourth  
Close your eyes  
We can go all night cuz  
We are loaded guns  
If you wanna go bang we can
