

# Unsinkable

Lucy Spraggan

I've been under water trying to push the anchor off me  
No air, I fill my lungs with concrete  
I should be drowning way down in the deep  
I should be broken drift wood on the beach

We won't abandon this ship  
We are unsinkable  
Bring on the storm  
We are unsinkable  
Between the devil  
And the deep blue  
Soul search and rescue  
We are, we are  
We are, we are  
Unsinkable

Searching for a light on the horizon to guide me  
I keep on fighting 'til the tides subsiding  
If I live with the last love I possessed  
Then the ocean floor will not be where I rest  
'Cause you know

We won't abandon this ship  
We are unsinkable  
Bring on the storm  
We are unsinkable  
Between the devil  
And the deep blue  
Soul search and rescue  
We are, we are  
We are, we are  
Unsinkable

Bring it on, do your worst  
I'm ready for whatever you've got  
For whatever you've got  
Bring it on, do your worst  
I'm ready no I won't stop  
No I won't stop

Oh oh, oh oh...

We won't abandon this ship  
We are unsinkable  
Bring on the storm  
We are unsinkable  
Between the devil  
And the deep blue  
Soul search and rescue  
We are, we are  
We are, we are  
Unsinkable

Waiting for a light on the horizon to guide me  
I keep on fighting 'til the tides subsiding
