

Leave It To You

Woodward, Lucy

Leave it to you to be so light
Comforting, kind of strange
Leave it to you to burst into my life
Leave it to me to stay
Falling in love's a typical day
The movie won't change it's end
But I'll, I'll buy the ticket anyway
Just in case it won't happen again

Leave it to fortunate fate, it's the chance that I take
Didn't know I was so naive
Leave it to me to cling to memories
Leave it to you to leave

Leave it to fortunate fate, did it show I was so naive
No matter how hard it burns, tell me what have I learned
Say the word and I'll still believe
Leave it to me to cling to memories
Leave it to you to leave
