Leave It To You

Woodward, Lucy

Leave it to you to be so light Comforting, kind of strange Leave it to you to burst into my life Leave it to me to stay Falling in love's a typical day The movie won't change it's end But I'll, I'll buy the ticket anyway Just in case in won't happen again

Leave it to fortunate fate, it's the chance that I take Didn't know I was so naive Leave it to me to cling to memories Leave it to you to leave

Leave it to fortunate fate, did it show I was so naive No matter how hard it burns, tell me what have I learned Say the word and I'll still believe Leave it to me to cling to memories Leave it to you to leave
