

# Battle Cry

Ludo

Oh, is there anything left to say?  
You've been down so long you've forgotten to believe  
(oooh)  
You're watching it slip away  
You've been kicked around, they got you on your knees  
But they're all the same  
They laugh and walk away  
And they think you'll turn around and go back home  
Back at home  
They said you'd never win  
You don't just climb the hill and grab the crown  
But they're all the same  
Scared of judgement day  
And you're sure you'll turn around and go back home  
But noooo

We are young  
But we will never die  
We won't give up  
This is our battle cry  
We will defeat the other guy

Gonna sit there in defeat  
You better suck it up boy and get up off the ground

You forget they made you bleed  
They kicked you like a dog when you were down  
If there's anyone  
Looking out above  
Then they'll never see us coming to reclaim

We dream the dreams  
Now we will fight the fight  
We will defeat the other guys

And we'll lead the dreams  
Until they die inside  
We'll raise their kids  
And commandeer their wives  
We'll raise their kids  
And commandeer their wives  
We'll curse their gods  
And drink up all their wine  
We will defeat the other guys  
We will defeat the other guys  
(other guys)
