

Sara's Song

Ludo

I was aching, breaking down
The bluest guy the blues had found
You came, you gave me Butter Pecan
You let me ramble on and on

When we walked down the street
My heart you would steal
With Ewoks on T.V.
I knew it was real
Clumsy royalty and speech pathology
You found me all alone I found myself a Blarney Stone
And Sara, you take my blues away
Every night I cuddle up with you
And Sara, you take my blues away

I love you forever and ever and ever I do

I love it when youre dreaming deep
Curled up in a ball asleep
Warm and good and made of love
You're just what I've been dreaming of

When we walked down the street
My heart you would steal
With Ewoks on T.V.
I knew it was real
Clumsy royalty and speech pathology
You found me all alone I found myself a Blarney Stone
And Sara, you take my blues away
Every night I cuddle up with you
And Sara, you take my blues away

I love you forever and ever I do
Oh, and Sara, you take my blues away
Every night I cuddle up with you
And Sara, you take my blues away
I love you forever and ever and ever I do
