

Feel So High

LUJURIA

Stoned and dry
How you spend your time?
I'm sorry I need my honey
I'm ready for my trip again

She stole your eyes
Stay with me tonight
The story begins
Only when you dive

I wanna feel so high (I wanna leave you)
Always ready to go
I wanna feel so high (I'm gonna leave you)
Cause no one knows how it feels now

Something's wrong
Gimme your price
It's funny and real
The emotions explode upon my arms

I wanna feel so high (I wanna leave you)
Always ready to go
I wanna feel so high (I'm gonna leave you)
Cause no one knows how it feels now

I wanna feel so high (I wanna leave you)
Always ready to go
I wanna feel so high (I'm gonna leave you)
Cause no one knows understand

I wanna feel so high (I wanna leave you)
Always ready to go
I wanna feel so high (I must leave you)
Cause no one knows how it feels now
