

# Deep Is The Night

Luka Bloom

I want to roll in the sand  
And swim in the sea  
Let the sun come through now  
And bring it all back to me  
When I awake with the birds  
They're singing in the trees  
They're singing let the sun come through now  
And bring it all back to me

Deep is the night  
Deep is the night  
Deep is the night

You can have your Jaguar  
You can keep your limousine  
But let the sun come through now  
And bring it all back to me  
You sing in the rain  
You can play in the snow  
But if I can't have my sunshine  
Well, I don't want to know  
Don't want to know  
Don't want to know  
I don't want to know

Deep is the night  
Deep is the night  
Deep is the night

I want to roll in the sand  
And swim in the sea  
So let the sun come through now  
And bring it all back to me  
You sing in the rain  
You can play in the snow  
But if I can't have my sunshine  
I don't want to know  
No, I don't want to know  
I don't want to know  
I don't want to know  
I don't want to know

Deep is the night  
Deep is the night  
Deep is the night ...
