

# Miracle Cure

Luka Bloom

When all the fighting is done  
Forgiveness  
When all the blood has run  
Forgiveness  
The opening fist  
Brings forgiveness  
A wounded hand to kiss  
Forgiveness

It's the wonderdrug  
It's the miracle cure  
It could change our world  
Make our lives secure  
I take my chance at each abyss  
And reach for my forgiveness

The moment the words cut in  
Forgiveness  
The moment anger begins  
Forgiveness  
In the light of a new day  
Forgiveness  
I hope you'll have your say  
Forgiveness

Together we grow  
Together we know  
No losers, no winners  
In forgiveness  
Together we're free  
Together we see  
No right or no wrong  
In forgiveness

It's the wonderdrug  
It's the miracle cure  
It could change our world  
Make our lives secure  
I take my chance at each abyss  
And reach for my forgiveness

Forgive me  
I forgive you
